winter 2009-2010

Chomping at the bit?

We understand. We share the passion. We've all faced down the mountain, and looked into the future, and felt the twitch in our legs as the corners of our mouth start to turn up.

At Angel Fire, the experience is painted brighter by startling blue skies chased by legendary sunsets. Short lift lines guarantee you're back up the mountain before your heart beat returns to anything resembling normal.

You'll enjoy a mountain of unspoiled, uncrowded trails for every ability level including an award-winning freestyle park. We have more than thirty acres of gladed tree skiing. Cross-country loops. Tubing. Even a well-lit bunny slope for nighttime snow play.

But you have to get here first. Call 800.633.7463 and talk to one of our friendly winter vacation planners today. They're there to help.

What are you waiting for?

Creature Comforts

Many are attracted to Angel Fire by our small town's rustic nature. There are no traffic lights, strip malls or fast food drive-thrus. The quiet, unpretentious setting here allows for simple family get-togethers without the distractions and hassles of a big city. But for those of you in search of four-star creature comforts and nightlife off the slopes, Angel Fire boasts an exciting new level of warm hospitality.

A multi-million dollar renovation of the Lodge at Angel Fire has been completed. Delivering greater choice in family and fine dining, exciting in-room upgrades, improved gathering areas and shared amenities like top-quality fitness equipment, "Wi-Fi anywhere" access, gourmet coffees and espressos, ski and bag storage, a kids-only activity center and great new evening events. Join us for Martinis every Friday night in the lobby of the Lodge, showcasing a menu of over 25 locally-inspired cocktail concoctions. But that's not all.

Finishing touches are being made on Angel Fire Resort's new 27,000 square-foot Golf and Country Club, just a short five minute drive away from the ski slopes. Opening May 2010, this year-round, public facility is poised to be the premier meeting spot in New Mexico. Featuring an elegant restaurant and bar, private wine rooms, an indoor swimming pool, massage treatments (great for après-ski!) and fabulous indoor and outdoor deck views of Wheeler Peak and the tall mountains surrounding our valley.

Angel Fire is in the midst of a transformation like never before. But one thing that will never change is the easy friendliness that welcomes you and your family back again and again.
